

DISTRICT'S NEWEST BANK ORGANIZES WITH 200 HOLDERS

Officials Expect to Open Financial Institution About Nov. 1.

More than 200 subscribers, men and women, to the stock of the Banking Trust and Mortgage Company, Washington's newest bank, assembled last night in the bank's temporary quarters, 1409 H street northwest, and placed the company on the map of local finance. A. H. Fowle, president of the Premier Finance Company, organizer of the new bank, presided.

Col. M. A. Winter, a business man and banker of long experience, was made chairman of the meeting, with H. W. Robertson, long a local financier, as secretary. In explaining the work of organizing the bank, Fowle said it would open its doors for business with \$1,000,000 of capital November 1, or as soon thereafter as the contractors turn the remodeled structure over to the bank officials.

To Build Downtown Home.
Mr. Fowle said building operations on the bank's permanent home in the downtown district will begin early next spring. Col. Winter called for nominations for trustees, and the selections were: Col. Winter, chairman; Percy S. Foster, a long-time Washington business man and civic worker; H. W. Robertson, experienced financier. This committee on permanent location and building was selected: Col. Winter, chairman; E. H. Rosenkranz, with W. P. Lipscomb Company; George B. Fray, A. H. Fowle, president of the Premier Finance Company; Percy S. Foster, to be also president of the new bank; P. A. Radice, with Ritz Brothers.

Select Board of Directors.
The organization committee, to nominate the new officers and members of the board of directors, was selected last night as follows: Col. Winter, chairman; P. A. Radice, Percy S. Foster, Louis Bernier, S. J. Foster, George S. Fray, and H. W. Robertson, vice president and treasurer of the Banking Trust and Mortgage Company. Enthusiastic and optimistic addresses were made by President Fowle, who announced as the slogan of the new bank, "Optimistic co-operation, with cordiality and reciprocity." Bruno Ragnoli, formerly attached to the Italian Embassy, told of the members of the local Italian colony who in large numbers are subscribers to the capital stock of the Banking Trust and Mortgage Company.

Hearty applause greeted an address in Italian by Antonio Mistrretta, a Washington merchant. A standing vote of confidence and appreciation was tendered A. H. Fowle, president, and his fellow-workers of the Premier Finance Company for their success in organizing the new bank.

MOVE TO DISBAR 3 BOSTON LAWYERS

BOSTON, Sept. 29.—One of the greatest sensations in the history of the Massachusetts bar was caused yesterday when the Boston Bar Association petitioned the Supreme Court to disbar Attorney Daniel H. Coakley, former Assistant District Attorney Daniel V. McIsaac, of Suffolk County, and former District Attorney William J. Corcoran, of Middlesex County, three lawyers who for years have been among the most active and prominent attorneys in greater Boston. The trio are charged with deceit, malpractice and gross misconduct.

This move is an outgrowth of the Tufts case, in which District Attorney Nathan A. Tufts, of Middlesex County, was charged with malfeasance, misfeasance and nonfeasance in office, and it is alleged that Coakley secured enormous sums from clients by using his reputed influence with Tufts and District Attorney Pelletier of Suffolk County. Coakley and Corcoran were charged with conspiring with Tufts in the famous 1916 champagne party at Mishaum Manor, after which noted movie magnates were alleged to have been blackmailed.

FLYING SQUAD NABS ALLEGED BOOKIE

James Mandjuris, 39 years old, proprietor of a luncheon at 1809 L street northwest, was nabbed last night by Detectives Fowler, Messer and Sweeney, of the flying squad, on a charge of making a handbook. Mandjuris lives at 509 Third street northwest, and slips number of racing forms and slips were said to be confiscated by the police. He was released on \$3,000 bond.

Roentgen Ray Society Honors Dr. F. H. Baetjer

Dr. Frederick H. Baetjer was the honored guest at the banquet of the American Roentgen Ray Society last night at the Washington Hotel, the occasion being the twentieth anniversary of his practice of Roentgenology. The principal address was delivered by Dr. William S. Thayer, of Baltimore, Md. Guest speakers were extended to Dr. Baetjer by Dr. Rene Ledoux-Lebard, of Paris; Dr. John M. T. Finney, of Johns Hopkins Hospital; Dr. George Pearce, for the British Roentgen Society; and Dr. P. M. Hickey. More than 250 guests were present.

The society has elected the following officers for the year: Dr. William H. Stewart, of New York, president; Dr. A. W. George, of Boston, first vice president; Dr. W. W. Watkins, of Phoenix, Ariz., second vice president; Dr. Hollis Potter, of Chicago, secretary; and Dr. William Evans, of Detroit, Mich., treasurer.

Plumber Sues for Libel

Maurice A. Hess, a plumber, of 824 Nineteenth street northwest, filed suit yesterday in the District Supreme Court against the Wayne Oil and Pump Company for \$50,000 damages for alleged libel. Through Attorneys Kennedy and Boyd, Hess alleges that September 29, 1920, the oil and pump concern, which has offices in the Southern Building, wrote him a letter about some plumbing work at the gas-filling station at "Potomac avenue and M street" done by him, which is alleged to have contained scandalous and defamatory statements.

YANK STRANDED ON LONE ISLE SPENDS 20 YEARS AS HERMIT

New Robinson Crusoe Found by Geologist Exploring Unmapped Zones of Caroline Islands.

(Special Cable to The Washington Herald and Chicago Tribune.)
MANILA, Sept. 29.—A twentieth century Robinson Crusoe has been discovered by Prof. William H. Hobbs, of the geological department of the University of Michigan, on the island of Kusal, one of the Caroline group.

Prof. Hobbs arrived in Manila last week after pursuing his geological investigations in the Southeast, and reported to Acting Gov. Charles E. Porter that he had found Capt. Leander West, of the American bark Horatio, which was wrecked in 1901 on the Caroline Islands. Living on Kusal Island, where he is the only white man.

According to the professor, Capt. West was befriended by a native chief and admitted to the chief's tribe, but now he wants to return to the United States. Only five ships, all Japanese, call at the island yearly, and Capt. West was not able to get passage on any of them. He has been paralyzed for the last year and a half, and has not been able to work. He is now being supported by the natives.

Gov. Yeater said last night that he will forward Prof. Hobbs' recommendations for the rescue and return of the United States of Capt. West to Washington.

Capt. West was born in Utica, Ohio. Prof. Hobbs is leaving aboard the U. S. S. Minnow, which will call at the Philippine Islands and other places in the Pacific to continue his studies of oceanic mountain formations. He will return to Ann Arbor via Europe in April, 1922.

STUDY EXTENSION OF EXPORT CREDIT

British Cabinet Believes Revival of Trade Only Proper Solution.

(Special Cable to The Washington Herald and Chicago Tribune.)
LONDON, Sept. 29.—The cabinet's committee on unemployment, the London mayors and the lord mayors of a number of provincial towns all held separate conferences in London today, tackling the unemployment problem, whose widespread influence are increasing in gravity.

The indications are that those conferences will attempt to work out Prime Minister Lloyd George's scheme for a national revival of trade, in the meantime temporarily stimulating the economy by combined local and governmental aid for the destitute.

The cabinet committee today considered the extension of the export credit scheme—now operative with respect to the Baltic states and Middle Europe, enabling them to buy from the British to South America and the Far East. Regarding relief of the unemployed, the committee estimated that it would take \$64,000,000 monthly to help the unemployed by relief works and that if such a sum were to be spent it should be spent so as to remedy the root of the evil—via the trade slump.

Arrangements are being completed for a week-end conference at Gairloch, at which Mr. Lloyd George will consult a group of experts and get their aid in drawing up the unemployment program which he will present to Parliament when it opens on October 18.

It has been discovered that among the unemployed receiving relief from the Lewisian-London board of guardians is a father of twelve children.

KLAN DENOUNCED BY POST OF LEGION

Resolutions denouncing the Ku Klux Klan and asking for an investigation of the activities of the Shipyard Board employees who were veterans of the world war, were passed last night by Hiram P. Cash Post, American Legion, meeting at 1326 Girard street northwest.

The post endorsed a Congressional investigation of the Ku Klux Klan. The Shipping Board question was debated at length with the result that efforts will be made to have veterans who have been dismissed from the Shipping Board reinstated.

T. Byron Gallagher and John W. Burrows were elected delegates to the State convention of the Legion, which will be held here October 14 and 15. Joseph Dowd and Alfred L. Stern were elected alternates.

JAPANESE AGREE UPON LIMITED NAVY

(Special Cable to The Washington Herald and Chicago Tribune.)
TOKYO, Sept. 29.—According to a reliable source the instructions of the delegates to the Washington conference, which were drafted at a conference between the foreign office and naval officials, are said to contain the following points:

Japan enters the discussion of naval restrictions with heartfelt sympathy. The eight-eight squadron plan was framed with a viewpoint of national defense, but it is recognized that the program already has lost its significance. Japan therefore is ready to limit its strength to a point sufficient to safeguard the peace of the Orient under an agreement with the powers and in a spirit of mutual concession and compromise.

McGraw's Men "In" Yanks Lack One Game

Pittsburgh's pennant hopes suffered away yesterday when the St. Louis Cardinals drubbed the Corns twice, allowing the championship to pass into the hands of the New York Giants without a struggle. McGraw's men spent an idle day, having nothing to do but watch the returns and cheer hoarsely for Rogers Hornsby and his mates.

Three more games with St. Louis confront the Pirates, but they don't mean a thing. If the Giants lose all their remaining four games and the Pittsburghers win the rest of theirs, the standing will be like this:

New York.....	Won	Lost	Pct.
Pittsburgh.....	92	62	.597
Cleveland.....	96	58	.623
New York.....	95	58	.621

In the American League the Yanks moved to within one game of the flag when they defeated the Athletics, while Cleveland was successful in the conquest of Dickie Kerr in Chicago. Cleveland can only win the pennant if the Yanks lose their three remaining games, while Speaker's men win as many from Chicago. In such an event the standing would be:

New York.....	Won	Lost	Pct.
Cleveland.....	96	58	.623
New York.....	95	58	.621

One more victory and two defeats will give the Yanks a percentage of .627, which the Tribe will be unable to equal.

ARBUCKLE LEAVES 'FRISCO, RECEIVING SMILES, FLOWERS

Women Make Hero of Fatty as He Takes Train.

SAN FRANCISCO, Sept. 29.—Mr. and Mrs. Roscoe Arbuckle, Mrs. Arbuckle's mother, Mrs. Flora Durfee, and a party of friends left tonight on the "Lark" for the Arbuckle mansion in Los Angeles. Let's put it that way, for the departure of "Fatty" from San Francisco was more or less of a society event. Though there were a few women all about the depot, the little groups near the train, some with flowers and all with smiles.

Fatty wasn't particularly glad to leave them. He smiled and shook hands with them and thanked them all, accepted the flowers, gave them to his wife and rolled himself a brown paper cigarette. He rolled the cigarette quite deftly with his left hand. His right hand was busy shaking good-bys.

Not the Same Boy.
There was nothing of the clown in Arbuckle tonight. The experience he had undergone in San Francisco has chastened him. He doesn't seem so fast as he was. He came to the depot in his brother's automobile, walked quickly through the station with Attorney Frank Dominguez, Attorney Milton Cohen, a few reporters and others, and would have entered his car at once had not the women stopped him.

Fatty got away from them at last, leaving a sigh of relief only to be congratulated and flattered by the Pullman porter, the conductor and passengers already in their seats.

"He left Los Angeles just a big boy," said Dominguez. "He is going back a man. He has suffered. I heard him weep the other night as though his heart would break. He doesn't understand why he was made to stay in jail, why he was prosecuted so vigorously, why the whole world condemned him. He wanted to talk. That is my belief. It will be a merry trial. It goes to trial. I have statements in my possession, absolute proof that will rip the hide off many of the prosecution witnesses. I will show conspiracy to blackmail Arbuckle. If I am given a chance, and there is no question in my mind that Arbuckle will be acquitted, and honorably and cleanly acquitted."

Action May Be Delayed.
Fatty may be gone a long time from San Francisco. The report here is that the prosecution is not so zealous about trying him on the manslaughter charge as it was to wait for his trial in Los Angeles. Attorney Matthew Brady said that "if the defendant was criminally responsible for the death of Virginia Rappe, he should be tried for murder, and not for manslaughter."

Brady must file information in the criminal department of the county clerk's office supporting the manslaughter charge sometime within thirty days. When the case has been assigned the trial judge will set a date for the arraignment; at the arraignment the judge will hear the information against the movie clown, and set a date for the trial. The first open date on the Superior Court calendar is next Monday, but there will be no trial Monday and it may not be for several months.

DIES IN RESERVOIR RECOVERING BALL

LYNCHBURG, Va., Sept. 29.—Perry Trent, a 5-year-old colored boy, yesterday afternoon threw a tennis ball into the basin of College Hill Reservoir and was drowned when he attempted to recover it. A crowd gathered at the scene, but the boy was dead when he was taken out five minutes later.

Officials at once cut the basin off from the supply mains in the city, and while the basin was being drained the city was supplied directly from the main which brings the supply from the Blue Ridge Mountains.

Indian Fighter Dies; Was 85 Years Old

LYNCHBURG, Va., Sept. 29.—Robert B. Abel, 85 years of age, a veteran of Indian wars and of the Civil War, died Tuesday at his home at Stapleton, where he had been living for about fifty years.

At the age of 21 he enlisted in the cavalry branch of the standing army, serving in that capacity for several years, during which time he fought in all battles against the Navajo Indians. At the beginning of the Civil War, he enlisted in the Confederate army and had been promoted to the rank of major, but he was captured at Sailor Creek and did not receive his commission.

Following the war he came to Lynchburg and engaged in business several years, when he went to Stapleton. He is survived by two brothers, William E. and Milton Isbell, and two sisters, the Misses Nannie and Laura Isbell, all of Stapleton.

Woman Shot During Quarrel

Sadie Jackson, 32 years old, colored, of 1638 Fourth street, is believed to be dying at Freedman's Hospital from bullet wounds said to be inflicted at her home by Edward Sands, 28 years old, colored, of 424 Franklin street northwest, who is being held at the Eighth precinct to await the outcome of the woman's injuries. Police say the shot was fired during a quarrel before midnight.

Boost Fire Prevention Week.

Clean up rubbish. Safety first. Many fires are caused by the careless use of gasoline matches, open lights, cigars and cigarettes. Start it now.

Observe "Don'ts" And Boost Fire Prevention Day.

1. DON'T allow children to play with matches. They should be handled with great care. They should be kept in a metal container beyond the reach of children and after you have used a match do not throw it away; place this also in a metal container so that the unburned portion or glow will not cause fire.

2. DON'T use candles on Christmas trees. They cause fires and much loss of life, conveying many homes into scenes of mourning.

DON'T use candles or inflammable decorations on or near Christmas trees. Tiny electric lights are best.

3. DON'T have lace curtains near gas brackets, or gas brackets near curtains. This also causes many fires by the curtains or shade coming in contact with the open flame. Gas brackets should be placed at a safe distance from the window and the curtain protected in such a manner that the combustible material could not come in contact with the open flame.

4. DON'T put hot ashes in wooden boxes; they cause many fires in homes. Hot ashes should be placed in a metal container and removed to the street at least once a day. The reason we have so many cellar fires is because people do not keep their cellars nice and clean. They allow piles of rubbish to accumulate. All rubbish, old newspapers, broken boxes, excelsior and old rubbish should be removed from the cellar.

5. DON'T allow old grease rags to lie around the house in corners or dark closets, because they start fires by themselves, without even having any match to set them off.

6. DON'T fill a lamp or oil stove while it is lighted, for this is dangerous and it is liable to explode and cause fire and injury.

7. DON'T, if your clothing catches fire, run and fan the flames, but stop, drench them with water, or smother them with a woolen rug or curtain.

8. DON'T use kerosene oil to light a fire in the kitchen stove or elsewhere, for many have been burned to death by doing so.

9. DON'T fail to remind people who smoke that it is dangerous to throw away lighted cigars or cigarettes. They constitute one of the most dangerous causes of fire.

10. DON'T leave a lamp or benzine in the house unless all windows are open and there is no open flame within 30 feet of it.

ADMIRAL GRAYSON INJURED IN SMASH

Rear Admiral Cary T. Grayson, formerly personal physician to former President Woodrow Wilson and now attached to the Navy Department in Washington, was painfully injured in an automobile accident at Nineteenth and H streets northwest yesterday afternoon.

The admiral was driving his automobile across the intersection when it was struck by an automobile of the United States Marine Health Service, operated by James Wiley, 2142 Eighth street northwest. Wiley was not arrested, but a report was made to the Third precinct police.

The impact of the collision shoved the admiral's machine against the curb. He was bruised about the legs and body, and received a severe shock. He was rushed to the Emergency Hospital in a passing automobile. After treatment he was removed to his home, 1600 Sixteenth street northwest.

PRICES GOING UP AS MARK DROPS

(Special Cable to The Washington Herald and Chicago Tribune.)
BERLIN, Sept. 29.—The collapse of German money has affected every family in the country, and now is beginning to affect foreigners who find hotels are raising rates. Also the big business houses, exporters and manufacturers are rushing to revise their prices.

For natives the drop in exchange means increased cost of living. Inasmuch as the foodstuffs, which are largely imported from America, are mounting in price. The price of condensed milk has doubled. Meats have gone to 20 marks a pound from 16 marks, and Chicago "corned beef" is up. Hollanders rush across the border to buy food cheaply in Germany.

ARREST FUGITIVE FROM HOSPITAL ON CHARGE OF THEFT

Prisoner Brought Here in Car Said to Have Been Stolen.

Donald Alfred McCurdy, 29 years old, of 2031 Ninth street northwest, who is said to have escaped from St. Elizabeth's Hospital a day before he was to be examined as to his sanity, was brought back from New York yesterday, where he was arrested for the alleged theft of an automobile in the District.

The trip to Washington was made in the automobile which McCurdy is accused of stealing. He was accompanied by Headquarters Detective Joseph Connors, of the auto squad.

Car Leads to His Arrest.
Police traced McCurdy through the stolen machine. He is charged with stealing the car of Glenn E. Peery, of 322 D street northwest, while it was parked in front of the LeDroit building on September 15. The prisoner denied the accusation, saying that the machine was stolen by another party. He told police he was in New York at the time the machine was stolen.

While out on bond on a hold-up charge at West Chester, Pa., McCurdy, with Herbert Ruff and McNelly Sutton, is accused of holding up James Doolittle and R. A. Turington along the Bladensburg road. This robbery, police say, occurred May 23, and the three were arrested on June 30. McCurdy was charged with assault.

Escaped from Hospital.
Shortly after his arrest, McCurdy was ordered sent to St. Elizabeth's Hospital for mental observation on the strength of a statement made by his mother. He was at the institution until September 2, when he escaped by unscrewing the iron bars of a window in the rear of the first floor.
